UIUX aspects and features

1. Symmetry
2. Spacious
3. Clean and sharp looking
4. Space in fonts wherever it looks good.

1. First Screen

a. Logo and Name of Company

i. Note the logo is a part of the background, they are not different.

ii. Avoid Logos and design like these ,here overall background different, app base red is different and then there is another white base.

b. Instead of "CREATE NEW ACCOUNT " we can have a "LET'S START" or something catchy, you also suggest .

2. Loading Screen (if at all it needs loading)
 - a. Name, logo, "LOADING" word and circle, some unique and catchy animation is good, if possible.

3. Screen

- Mobile number input and Otp verification
- Resend message option
- Simplistic design with color theme matching and complimenting the overall experience. Shades of main color theme
- Note number pad is NOT blocking the mobile number input area, otp input area

PAGE ZERO from Requirements document (point 2.b.i)

- App looks spacious, spaced font
- Symmetric
- Circular shape image
- Name is min 3 capital alphabets and maximum 6

Baba ka Dhaba owner resumes old eatery after restaurant fails, blames social worker

Delhi's 'Baba ka Dhaba' owner Kanta Prasad said he closed the restaurant he opened last year after investing ₹5 lakh and has resumed his old eatery. He said the expenditure was ₹1 lakh/month but sales never crossed ₹40,000. He blamed social worker Tushant Adlakha, who he said helped him open the restaurant and manage investments but didn't give enough time.
